

RECARO

SIT RELAXED AND ENJOY

RECARO Maritime Seats

ON THE RIGHT COURSE. WITH RECARO.

Wilhelm Reutter founded his body shop in 1906. Ever since, we've been obsessed with custom mobility, and Reutter's passion lives on in the first two letters of our brand as well as in everything we do. We're all about making driving safer, more comfortable and more controlled – a driving experience that you can really feel. We put people first. Every time. We're equally obsessed with motorsport. Whatever record you broke yesterday, you aspire to beat it today. That's why we're constantly looking for ways for you to shave a little time off your next lap – safely. Winning is one thing. But to be a champion, you need to keep learning and developing.

Our seats are more than just a set of components. They're made of innovation, quality, premium materials, craftsmanship and a serious passion for cars – and of course also for yachts. From the ultimate in comfort and ergonomics to uncompromising sporting flair, our products are as diverse and exacting as the individuals who buy them. And always in the quality you expect from RECARO. Choose cutting-edge performance that puts you in the steering seat.

With a RECARO Maritime Seat you always sail the right course.

UNPARALLELED PERFORMANCE.

The extensive expertise of RECARO Automotive in the manufacture of vehicle seats has flowed into the development of the maritime seats by SUN Marine Seats, the authorized license partner of RECARO for Maritime Seats.

RECARO has been setting standards in automotive seating for decades: The product portfolio for the present and the future of automobiles brings together design, ergonomics and comfort with innovation, craftsmanship and premium quality. In this way, RECARO boat seats impress with their attractive design, perfect styling and ergonomic properties as well as the high quality of the materials and coverings used. The seats are also noted for being long-lasting and resilient.

Did you ever test a RECARO seat? Then you know how good it feels. It fits like a glove. And you feel like you're sitting IN the seat and not ON it. This is what all RECARO models have in common. We call it Body Support. It's snug, supportive seat structure and side bolsters for excellent shoulder and torso support stabilize the body against lateral forces, cocooning it like a second skin. Feel the difference!

"The function of a product determines its form.

As RECARO designers, our top priority is ergonomics – it's all about the person in the seat:

form follows human."

Frank Beermann
Chief Engineer Industrial Design
RECARO Automotive Seating

MAKE YOURSELF AT HOME.

An ergonomic sitting position also means a comfortable position. Driving your boat or yacht should feel like a relaxing visit to the spa after a stressful week. With a range of smart comfort features and perfect seat contours that support your body, we make every journey an experience to savor. This support is vital, as being behind the wheel forces you to sit passively – one of the worst possible positions for your body. Depending on the route, driving style and weather conditions and factors like centrifugal force, deceleration and vibrations come into play, which is why many skippers complain of muscle tension, circulatory problems, headaches or concentration issues on long journeys.

A good maritime seat has to compensate for these factors with support and protection: an ergonomic seat structure, body-hugging contours, firm upholstery, pronounced side bolsters and finely-tuned adjustment options along with breathable covers, and comfort features such as an extendable seat cushion, lumbar supports and an adjustable footrest, heating or air conditioning.

SUN
MARINE SEATS B.V.

APPROVED BY RECARO

Seats used in the maritime environment are only approved by RECARO, when these seats are manufactured by SUN Marine Seats.

EVERY INCH LUXURIOUS.

Hand-picked surfaces. Premium fabrics. Exclusive leather. Perfect stitching that draws the eye along the side contour. A RECARO seat fuses style, superb materials and outstanding craftsmanship for unparalleled quality.

Only the perfect combination of color, form and manufacture meets RECARO's premium standards. It really is as comfortable as it looks! Ultra-light carbon, cutting-edge composites, and high-end foams and textiles complete our range of materials.

A great deal of traditional craftsmanship goes into our seats. From the seams and cushions to the superb finish, the finely honed skills of our craftsmen shine through. Not even the tiniest detail escapes their expert eye.

CUSTOM SEATS. TAILORED FOR PERFECTION.

A RECARO seat is like a tailor-made suit. It fits perfectly, effortlessly underlining your unique personality by combining elegance, premium quality and individual style. Only products made with passion and skill make you feel this special. Crafted to perfection using the finest materials and consistent down to the tiniest detail, they say it all.

RECARO is the brand for exclusive seats made precisely to your tastes. Alongside perfect fit, they boast intelligent design that combines the ultimate in functionality, ergonomics and looks. RECARO seats are available in a wide range of upholstery materials and colors. We'll tailor your new seats to suit your personal preferences.

UNCONDITIONAL COMFORT.

From the heat of high summer to a frosty winter's morning, the right temperature is essential for truly comfortable seating. So RECARO came up with an ingenious system. For hot weather, the seat has a breathable membrane and air conditioning system to wick away moisture, keeping you comfortably dry, but never cold. When temperatures drop below zero, RECARO seat heating keeps you pleasantly warm.

COMPLETE CLIMATE PACKAGE FOR YOUR HEALTH.

RECARO Arctic

Exemplary in terms of ergonomics and seating climate. Extremely low side bolsters and a flat seat cushion enable easy access. The RECARO Arctic – a unique package.
