Modern performance with a classic look: The new Recaro Classic Pole Position (ABE)

A new original for historic sports cars: Recaro Automotive Seating, leading manufacturer of performance car seats, presents the Recaro Classic Pole Position (ABE) at Retro Classics in Stuttgart. With its classic look, the thoroughbred racing shell with street legal approval fulfils the desire of many lovers, collectors and drivers of classic cars for a seat with the latest in comfort, safety and ergonomics. The outstanding characteristics are confirmed by none other than rally legend Walter Röhrl with his name and the label "Approved by Walter Röhrl".

Stuttgart, Germany, February 27, 2020 – At the interface between race track and road, it is one of the most popular seat models from Recaro Automotive Seating: The combination of excellent ergonomics and uncompromising safety has long since made the Pole Position (ABE) one of the most coveted shell seats in club motorsport. The now presented classic version of the bestseller, which is available in the upholstery variants pepita fabric/leather, classic corduroy/leather, classic checkered fabric/leather and full leather, blends harmoniously into classic-sporty interiors such as those of a Porsche 911.

It focuses on the best body support for a sporty, dynamic driving performance and surrounds the body like a second skin. Rally legend Walter Röhrl also emphasizes that this support is an often underestimated success factor behind the wheel: "I can only drive well if I form a unit with the seat." The Recaro Classic Pole Position (ABE) confirms this characteristic with the label "Approved by Walter Röhrl".

The one-piece, body-hugging contoured racing shell made of glass-fiber reinforced plastic has belt slots for 3- and 4-point belts, replaceable seat and backrest cushions and a paddable lumbar support. The new Classic shell is manufactured in Kirchheim/Teck, Germany. It will be available from Recaro Classic partners from July 2020 at a price of 1,800 euros.
