Take a seat at the Essen Motor Show: Authentic Recaro automotive seats for the office and homes

Essen, November 26, 2021. They are made for vehicle enthusiasts who do not want to miss out on the familiar performance seating feeling at home or at work: the high-quality office chairs of the Recaro Office Line. During the Essen Motor Show 2021, new models of the exclusive product line can be experienced up close, test-sat and ordered at the Recaro Automotive booth (Hall 3, Booth 3A25). At the same time, these items will also be available to purchase online in the official Recaro Automotive Fanshop for lifestyle products.

The Recaro Office Line, a lifestyle product segment of Recaro Automotive, brings the dynamics and sporty design from the road directly to the workplace in the office or home office with an original car seat: with anatomically shaped seat contours that replicate the human spine and perfectly support the body in its posture. With numerous adjustment options. With castors that glide easily over a variety of floors. So that car lovers can indulge their passion at home, too.

The new office chairs are made of high-quality and exclusive materials such as soft leather, innovative textiles and a robust base that can withstand the rigors of daily office use. Thanks to their origins in the automotive industry, they meet even higher standards than are common for office chairs. This is noticeable, among other things, in the quality of the seat foam, which guarantees long-lasting comfort even under continuous wear and tear.

Visitors to the Essen Motor Show 2021 will also be able to experience this unique seating feeling first-hand. At the appearance of Recaro

RECARO Automotive in Social Media

Automotive (Hall 3, Booth 3A25), the brand manufacturer will present its **new additions to the office range**.

The first of these is the **Speed Star**, which was developed together with automotive influencer Philipp Kaess. With an ergonomic seat, pronounced shoulder support and robust synchronous mechanism, even long periods of sitting while working or playing video games can be completed without fatigue in the Speed Star. A stylized seatbelt passage, black cover materials with embroidered decorative stripes and contrasting stitching in Indian Red radiate pure racing dynamics even when stationary. The Speed Star is available as an office chair or as a static chair on a car lounge platform.

The only chair that is even more dynamic is the Recaro **Office Cross Sportster CS**. Clearly inspired by the iconic, thoroughbred Recaro racing shells, it is the sports seat par excellence for the office and the home - without compromising on comfort. In addition to classic black vinyl leather with decorative stitching in Indian Red or Acid Green, a premium edition in cognac-colored saddler leather with black stitching and embroidered Recaro logo is also available.

A true luxury classic is the Recaro **Office Classic LX**, which is particularly attractive to fans of classic cars and youngtimers. The Office Classic LX was designed on the basis of genuine Recaro classics from 1984 - featuring retro flair in black leather combined with classic fabrics such as corduroy, check or pepita.

These and other seats can be ordered not only on site at the show, but also from the official webstore at <https://shop.recaro-automotive.com>.
